

KISR Digital Repository (KDR)

KISR Digital Repository for science and technology (KDR) is responsible for collecting, organizing and disseminating valuable information and data created throughout the different scientific research activities carried out at KISR, including KISR reports, government initiatives and government collections.

- kdr.kisr.edu.kw

How to search for documents on KDR?

- » **Author Name:** Search by the name of the document's author.
- » **KISR Number:** Use the assigned KISR number to find a particular document.
- » **Subject:** Find documents related to specific subject matters.
- » **Document/Report Type:** Filter documents by type (KISR Reports - Government Initiatives).

Documents Accessibility

The KDR offers three levels of accessibility to its documents based on their copyright status.

- » **General:** fully accessible.
- » **Restricted:** needs permission.
- » **Confidential:** needs permission.

Confidential/Restricted Reports Permission

Researchers need to Submit a memo addressed to NSTIC's Division Director, signed by the Executive Director of the sector/center that published the requested reports.
