Sustainable Development in Arid Zones

Assessment and Monitoring of Desert Ecosystems

**Edited by Samira A.S. Omar,
Raafat Misak & Dhari Al-Ajmi**

1

SUSTAINABLE DEVELOPMENT IN ARID ZONES
VOL. 1: ASSESSMENT AND MONITORING OF DESERT ECOSYSTEMS

PROCEEDINGS OF THE INTERNATIONAL CONFERENCE ON DESERT
DEVELOPMENT IN THE ARAB GULF COUNTRIES

Sustainable Development in Arid Zones

*Volume 1: Assessment and Monitoring
of Desert Ecosystems*

Edited by

SAMIRA A.S. OMAR, RAAFAT MISAK
& DHARI AL-AJMI

Kuwait Institute for Scientific Research, sustainable development in arid zones

A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1998

The international conference on desert development in the Arab Gulf countries

Sponsored by

Kuwait Institute for Scientific Research (KISR)

Supported by

The Kuwait Foundation for the Advancement of Sciences (KFAS)

Environment Public Authority (EPA)

Kuwait Finance House (KFH)

Public Authority for Assessment of Compensation for Damages Resulting from Iraqi Aggression (PAAC)

United Nations Development Programme (UNDP)

Gulf Cooperation Council (GCC)

Organizing committee

Dhari Al-Ajmi	Chairman
Mane Al-Sudairawi	Rapporteur
Abbas Alikhan	Member
Khalid Al-Muhailan	Member
Nader Al-Awadhi	Member
Mahdi Abdal	Member
Samira Omar	Member
Raafat Misak	Member
Ghadeer Abdulaziz Al-Matar	Member

Scientific committee

Samira Omar	Chairperson
Raafat Misak	Rapporteur
Mohammed Abdur Razzaque	Member
Mane Al-Sudairawi	Member
Andrews Kwarteng	Member
Riyadh Al-Hawagi	Member
Samecha Zaman	Member

Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by A.A. Balkema, Rotterdam, provided that the base fee of US\$1.50 per copy, plus US\$0.10 per page is paid directly to Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is: 90 5410 452 X/98 US\$1.50 + US\$0.10.

Contents

Preface	IX
Acknowledgment	XI
Conference recommendations	XIII
Global and regional prospects	
Global climatic changes and desertification threats <i>Henry N. Le Houérou</i>	3
Prospects for increasing carbon storage in desert soils and the likely impact on mitigating global climate change <i>Victor R. Squires</i>	19
Desertification: its impact on sustained irrigated agriculture and management in an arid environment in the Arab states of the gulf <i>Ali A. Al-Jaloud, Ghulam Hussain & Saaf F. Al-Shammary</i>	31
The impact of global change on desertification in China <i>Ci Longjun</i>	45
Gulf war impact	
Assessment of soil contamination in SIA with oil related pollutants <i>Saleh Al-Muzaini, P.G. Jacob & M.U. Beg</i>	63
Impact of the Gulf war on Kuwait's desert flora and soil <i>Sameeha Zaman</i>	69
Potential human health and marine ecology hazards associated with oil contaminated soil in Kuwait's desert <i>Lulwa N. Ali & Sami Al-Yakoob</i>	83

93	Correlation of spectral reflectances of desert surfaces in Kuwait <i>Ahmad E. Al-Doasari, Ryherd Soren & Farouk El-Baz</i>	263
	Mapping and monitoring sand dune patterns in northwest Kuwait using Landsat TM images <i>Huda Al-Dabi, Koch Magaly, Farouk El-Baz & Mohammad Al-Sarawi</i>	273
ew	A new technique to retrieve microwave emissivity and its application to soil moisture measurement from space <i>Hala K. Al-Jassar, Andy Harris & Jeff Ridley</i>	281
111	Origin and evolution of the Arabian Desert as revealed by satellite <i>Farouk El-Baz</i>	297
127	Remote sensing and GIS as a planning tool for the definition of strategies for combating desertification <i>Roland Geerken, Mohammad Ilaiwi, Nazir Sankary, Mahmoud Askar, Eva Geerken, Moustafa Aloul, Bassem Katlan, Sanaa Ibrahim & Noura Al Imam</i>	309
143		
155	Desert rangeland inventory and monitoring with calibrated, high temporal resolution satellite imagery <i>Marlen D. Eve, Vincent Gutschick, Kris M. Havestad, Albert J. Peters, Rex D. Pieper & Walter G. Whitford</i>	321
169		
desert	Application of a Geographic Information System (GIS) in modeling geomorphological change in Kuwait's desert <i>Koch Magaly, Abdelgadir A. Abuelgasim & Farouk El-Baz</i>	333
189	Evaluation of OPS and SAR JERS-1 data for desert development studies <i>Abdulkader Al-Sari & Youshie Takashi</i>	341
in	List of Authors	355

VI Contents

Evaluation of bioremediation technologies for restoration of damaged desert soil in Kuwait <i>Nader Al-Awadhi, Talat Balba, Reyad Al-Daher, Amin El-Nawawy & Awatif Yateem</i>	93
Drift sands and sand dunes assessment and control	
Understanding the dynamics of aeolian sand transport systems – An overview of recent progress <i>Nicholas Lancaster</i>	111
The concepts of global wind action system and aeolian sediment balance, keys for aeolian action and desertification <i>Monique Mainguet & Frederic Dumay</i>	127
The control of sand drift <i>Brian B. Willetts</i>	143
Grain dynamics and wind-flow in a variable slope wind tunnel <i>Keld R. Rasmussen & James D. Iversen</i>	155
New approach to the classification of eolian landforms in Kuwait <i>Raafat Misak, Mohammed Zaghoul and Modi Mohammad Ahmed</i>	169
Sand traps for field measurement of aeolian sand-drift rate in the Kuwaiti desert <i>Jasem M. Al-Awadhi & Jack E. Cermak</i>	177
Predicting sand transport rate <i>Ian K. McEwan</i>	189
New method for study of sand dune movement and wind potential erosion in aridlands <i>Chahbani Bellachheb</i>	197
Desert geomorphology, eolian sand drift rates and their role in design of sand control measures in the Abqaiq Area, Saudi Arabia <i>Oguz Irtem, Khattab G. Al-Hinai, Wasim Ahmad & Abdulwahab Z. Ali</i>	213
Sand movement in the state of Qatar – The problem and solution <i>Ali Ibrahim Al-Sheeb</i>	223
Sand dune fixation – Lessons learned from projects in China, Iran and Somalia <i>Victor R. Squires & Abdulkadir Warsame</i>	241
Remote sensing and GIS application	
Application of remote sensing and Geographic Information Systems in desert geomorphology <i>Farouk El-Baz</i>	251
